

CambridgePYTHON "Train the Trainers" visit to Cambridge University (16/03/2009)

The S&I Unit at the British Embassy facilitated the participation of three CambridgePYTHON project members in a study visit hosted by the University of Cambridge. The visit took place from 5th to 10th March and included interactive seminars with British academics held in the Computer Laboratory and the Department of Applied Mathematics and Theoretical Physics (DAMTP).

The purpose of the visit was to further showcase Cambridge best practice in research commercialisation to trainers who will work with students during the 2009 CambridgePYTHON projects competition.
